

Dear Hiring Team,

I'm Edrian Miguel Capistrano, a second-year Computer Science student at Ateneo de Manila University (3.91 QPI) applying for the Web Developer Intern position. I have strong hands-on experience building full-stack web applications and a proven track record of delivering production-ready solutions.

Relevant Experience:

I currently serve as a Developer for the Computer Society of the Ateneo and IT Skills & Development Officer for the Ateneo Management Information Systems Association (MISA), where I've deployed software solutions for organizational events and client projects, ensuring implementations meet professional standards. I'm also a Backend Developer at Google Developer Groups on Campus, designing and maintaining scalable server-side applications and APIs.

Recent Projects:

- **Chika** – A full-stack anonymous messaging app built with Next.js, TypeScript, Drizzle ORM, and Better Auth. Implemented secure server-side logic, admin dashboards, and a responsive UI with word-cloud visualization from public messages.
- **MISAyang Samahan** – Delivered a Pokémon-themed HR platform (Node.js, Express.js, PostgreSQL, TailwindCSS) serving 60+ members within a two-week deadline. Designed quiz-based logic, admin tools, and secure database integration while collaborating across UI/UX, HR, and project teams.
- **Musicells** – Built a React app with dynamic album browsing and Spotify API integration, demonstrating API authentication and state management using Zustand.

Technical Skills:

JavaScript, TypeScript, React, Next.js, Node.js, Express.js, PostgreSQL, TailwindCSS, Git, GitHub, Vercel, REST APIs

I'm committed to meeting deadlines, collaborating effectively with team members, and learning from experienced developers. I'm ready for training and eager to contribute to your team's projects.

I've attached my resume and look forward to discussing how I can add value to your organization.

Best regards,
Edrian Miguel E. Capistrano
